

AMENDMENT TO THE SPECIFICATION

IN THE ABSTRACT

ABSTRACT OF THE DISCLOSURE

A¹ The invention includes an integrated circuit. The integrated circuit ~~may~~ includes a test controller, at least one logic unit controller, and a test bus ~~coupled~~nnected between the test controller and the logic unit controller. A design for test feature ~~may~~is ~~be coupled~~connected to the ~~one~~ logic unit controller. Moreover, a logic unit ~~may~~can be ~~coupled~~connected to the ~~at least one~~ design for test feature.
